Table 172: Make the tDMT. The “truncated” — or filtered DMT — is one where all the ODDs are from the Running Sums (Σ) of the Butterfly Fractal 1 (BF1) Row 1.

To grow, select and expand to the bottom and then fill left column by autofill, other columns will auto fill from this. The formula is simple to double the ODDs Column.

Double each Column for expanding Columns. The Mersenne Primes — Perfect Numbers are shown in BOLD.
